AREA OF EXPERTISE

Mobile Development	Front-End Development	Version Control
Documentation	Testing and Debugging	Responsive Design

KEY ACHIEVEMENTS

- **Collaboration and Teamwork.** Actively participated in team meetings and brainstorming sessions, offering valuable insights and contributing to team goals, fostering positive working relationships.
- **Technical Skills Development:.** Acquired proficiency in Dart/Flutter, Node.js through hands-on experience and mentorship, enhancing ability to contribute to team projects.

EXPERIENCE

BlackCoffer Intern Flutter developer - Oct 2023 - Jan 2024

- During my internship at BlackCoffer as a Flutter Developer, I gained invaluable experience in utilizing Bloc Provider for efficient state management and honed my skills in product management. Immersed in backend services, I developed a comprehensive understanding of their intricacies, enhancing my ability to deliver robust mobile applications.

VR Marketing Flutter developer - March 2024 - May 2024

- I developed a survey application allowing users to create and manage survey polls. This app enables seamless creation, distribution, and analysis of surveys, empowering users to gather valuable feedback efficiently.

EDUCATION

Azerbaijan University - Information Security (B.S degree)   **2021-2025**

- I am currently studying Information Security at Azerbaijan University. My program provides a comprehensive education in protecting digital information and systems from cyber threats.

Holberton School Azerbaijan - Full Stack Web Development   **2024-2025**

- I'm currently enrolled in the Full Stack Web Development program at Holberton School Azerbaijan. This program offers a dynamic learning experience focused on preparing students for web development careers through a comprehensive curriculum and hands-on projects.

ADDITIONAL INFORMATION

- **Languages:** English
- **Technical Skills:** Mobile and Full Stack web development (Dart/Flutter, JavaScript, React, Node.js)
